Abstract. The two abstracts (in Italian and in English) should summarize the contents of the paper and should contain at most 150 words each. It should be set in 9-point font size and should be inset 1.0 cm from the right and left margins. There should be two blank (10-point) lines before and after the abstract.

Sommario. I due sommari (in italiano e in inglese) dovrebbero riassumere i contenuti dell’articolo e dovrebbero contenere al massimo 150 parole ciascuno. Dovrebbero essere scritti in carattere 9 punti, rientrati di 1.0 cm dai margini destro e sinistro. Dovrebbero esserci due righe bianche (10 punti) prima e dopo il sommario.

1 Introduction

In this template we give some instructions to follow in order to prepare a paper for Networks. The indications are fairly general, and leave room for particular applications (figures, graphics, etc.), which are not contemplated in these brief notes. After the two abstracts, we propose to insert a brief introduction, eventually with historical aspects of the subject.

2 Manuscript Preparation

Please follow these instructions closely in order to make the volume look as uniform as possible.

We would like to stress that the class/style files and the template should not be manipulated and that the guidelines regarding font sizes and format should be adhered to. This is to ensure that the end product is as homogeneous as possible.

3 Layout, Typeface, Font Sizes, and Numbering

The main text is TIMES NEW ROMAN 10-point, single-line spacing; use 10-point type for the name(s) of the author(s) and 9-point type for the address(es) and the abstracts (both in Italian and in English). Program listings or program commands in the text have to be written in font COURIER. Names of programs (or of programming languages) are to be written in CAPITAL TIMES NEW ROMAN.
3.1 Titles of Section and Subsection

Titles of sections are in TIMES NEW ROMAN 12 and titles of subsections are in TIMES NEW ROMAN 11. Italic type may be used to emphasize words in running text. Bold type should be avoided, as it will be used for titles of sections and subsections.

In English words in titles will be capitalized except for articles and prepositions (ex. The Importance of the New Theory of Something), while in Italian, normally, only the first letter will be capitalized (ex. L’importanza della nuova teoria di qualcosa).

4 Page Numbering and Running Heads

Your paper should show no printed page numbers; these are allocated by the volume editor. Do not set running heads.

5 Figures, Tables and Formulas

Figures should be numbered and should have a caption which should always be positioned under the figures, in contrast to the caption belonging to a table, which should always appear above the table.

Unless it is necessary to break lines for particular reasons, displayed equations or formulas are centered and set on a separate line as follows:

\[ \forall (P x \rightarrow Q x) \] (1)

Displayed expressions should be numbered for reference. The numbers should be consecutive within each section or within the contribution, with numbers enclosed in parentheses and set on the right margin.

6 Footnotes

The superscript numeral used to refer to a footnote appears in the text either directly after the word to be discussed or – in relation to a phrase or a sentence – following the punctuation sign (comma, semicolon, or period). Footnotes should appear at the bottom of the normal text area, will be written in TIMES NEW ROMAN 9-point, and will be automatically numbered in the text.

7 Citations and Bibliography

Citations have to be made by indicating the main author and the original date of publication of the paper or the volume, in the following way: McCarthy (1993) or (McCarthy 1993) depending on the context. The bibliography that follows, in TIMES NEW ROMAN 9-point – without pagebreak – is ordered alphabetically by author and date of publication, putting into quotation marks the titles of papers and in italic the titles of journals and books.

1 This is an example of footnote. The footnote numeral is set flush left and the text follows with the usual word spacing. Second and subsequent lines are indented.
